VOLUME 2. MARYVILLE, MISSOURI, WEDNESDAY, AUG. 30, 1911 NO. 75.

FOR AN AUDITORIUM

TALK OF ONE FOR CHAUTAUQUA PURPOSES AT PARK.

TO BE $10,000 BUILDING

Money to Be Raised for That Purpose and Subscriptions Will Be Received by the Newspapers.

The committee on a permanent Chautauqua company for Maryville is taking up the matter of building a $10,000 steel auditorium for Chautauqua purposes at the Normal park, where the Chautauqua was held this year. Several letters have been written to other towns where they have Chautauqua buildings.

The plan of building an auditorium on the Chautauqua grounds should meet with the approval of the citizens, and it is thought that probably $10,000 can be raised here for that purpose. There is no doubt that if Maryville has a permanent Chautauqua that we ought to have a permanent auditorium. The building could be used for many other purposes, such as meetings or conventions, and for corn growing and domestic science contests that are given under the direction of County Superintendent Oakerson each year.

On the last night of the Chautauqua $1,250 was subscribed by five men for a permanent auditorium if $10,000 could be raised for that purpose. The committee has decided to have the newspapers here receive subscriptions, and all those who are willing to subscribe toward that purpose are requested to either send or telephone their subscription in to either newspaper office.

What Clarinda Did.

The following is from William Orr of Clarinda in regard to the auditorium built at Clarinda for Chautauqua purposes:

"We built our auditorium after carefully viewing the good ones of the country, and we are more than pleased with it. While it will not seat our large crowds, we feel that the day of great crowds are past. Our auditorium is 130 feet across, with a 5-foot projecture of roof, making it 140 feet. It has a stage and dressing rooms, 40x60. It has permanent seats, made of 2x4 and 1x12, that are strong and serviceable, but not very attractive. We contracted with Burnham & Ives of Bloomington, Ill., for the steel frame and let the contract for the wood work to a contractor here. Burnham & Ives built the structure ready for the wood work. We put single roof on all but the stage annex and it is rubberoid. We bought a little stage scenery costing us $400. Our floor is covered with tanbark.

"The steel frame is bolted to concrete piers, built in the ground. The building is raised four feet from center to rear and sloped a foot and a half from center to front of stage. It is entirely open on all sides but the stage side, where there are two wings from the front of the stage to protect the platform. It is lighted with electricity, the building being wired in conduits after the most approved style. This wiring cost us $400.

"The building completed as it is now cost us $10,000."

From Fairfield, Ia.

A letter from Charles W. Wade, a former resident of Maryville, to S. H. Kemp of this city says:

"Relative to our Chautauqua auditorium, we have a wooden structure that will seat 4,500 people comfortably. This building cost completed $2,800. It is built over a natural bowled piece of ground, so that anyone in the building can see and hear the speaker. The roof is tar paper and the sides are all doors, and so hinged that they raise and make a shade awning for the eaves. The seats are regular lawn settees, about 6 feet long. Our association went in debt about $10,000, and it is now more than three-fourths paid out. Some new stock is taken out each year, and the debt will be cancelled about three years before the final is due. I hope you can inject enough enthusiasm in Maryvillians to erect the building."

Harold and Dale Bellows left Wednesday for Ames, Ia., where they will attend the Iowa Agricultural college the coming year.

CLARK TO COME TO MARYVILLE SOON

Prof. W. M. Oakerson and W. C. Van Cleve went to Shenandoah Tuesday to interview Hon. Champ Clark with a view to securing him to deliver an address in Maryville during the corn contest in November. Mr. Clark agreed to come to Maryville at that time, provided he can arrange his speaking dates so that he can do so. The whole of October will be taken up in Chautauqua work, and in addition to that he has agreed to make a large number of political addresses.

Mr. Clark spoke Tuesday to a large crowd at Shenandoah and was received with much enthusiasm when ex-Congressman Jamison referred to him as "a politician who believes in fulfilling after election all the promises he makes before election," and declared him his choice for the presidency.

He made an able non-partisan address on the achievements of the United States, and declared himself an optimist who believes the world is continually growing better and that this country is primarily responsible for an improvement throughout the world.

ANIMAL DRINKING FOUNTAIN IS NOW READY.

SKETCH OF THE FOUNDER

Of the National Humane Alliance, Who Left His Fortune to Better Condition of Dumb Animals.

Since the water is turned on into the handsome new drinking fountain recently presented to the city by the National Humane Alliance, and which has been placed at the intersection of Market and Fourth streets, it is an opportune time to call attention to the founder of the National Humane Alliance. This man was the late Hermon Lee Ensign.

The fountain was secured for Maryville by the local humane society.

Mr. Ensign was born in Carbondale, Pa., on June 30, 1849. At any early age he moved with his parents to Sheffield, Ill. When 15 years old he acquired a knowledge of telegraphing, and soon became an expert operator. Soon after that he went to Davenport, Ia., and later to Denver.

He was reared under religious influences, was a member of the Congregational church, and when 20 years old decided to become a minister. With that object, he entered Phillips academy. His health or finances soon failed, and he left school and went to Chicago, where he began business with a bridge company.

During the great fire of 1871 he rendered important service to this company by saving from the office valuable books.

A few years later he became the manager of a brilliantly written paper called the Alliance, a weekly journal, mildly religious and widely humanitarian. His experience in journalism he turned to practical account by later engaging in the advertising business, following it with marked success, and acquired a fortune in twenty years.

Fertile in fancy and quick in experience, he devised a new form of newspaper advertising known as headline reading advertising. He also invented the stereotype plate with removable base.

In 1882 he moved to Rochester, and two years later to New York, where he lived until his death in 1899.

Without advantages of birth or fortune, living the life of a quiet American citizen and dying before he was 50, he had rounded out a notable life. To his business and general friends he was known as a genial and companionable man, successful in his affairs, light-hearted and satisfied with life. His more intimate friends know that he had other interests and feelings, which represented the deeper and more vital side of his nature. He had an eager and imaginative temperament, an instinctive love of what is good and true and a hatred of what is wrong. From childhood he was a lover of domestic animals. This love made him detest all that was cruel or unkind in the treatment of animals by their natural protector—man. It became more than a sentiment—it became a passion, growing upon him and at last dominating his life.

To him animals were not merely inferiors or slaves, they were companions and friends, devoting themselves to man and dependent upon him for their lives and happiness. The ethics of the relations with lower animals have seldom had more practical and forcible expression than from this humane man. He was an ardent disciple of Henry Bergh, and felt that if he could leave behind him such a record as did Mr. Bergh, he would regard it as the best monument that he could desire.

He accordingly founded the National Humane Alliance to carry out his ideas for the welfare of animals. He intended to give his time and fortune to the work. But just as it was started he died. He left his fortune for this work, and the society is administering the trust of Mr. Ensign on the lines of his ideas, for humane work, educating children in kindness to animals and other similar work.

The Humane Alliance has offices at No. 520 United Charities building, New York City. The officers are: Harrison Grey Fiske, president; Frederick B. Tilghman, vice president; Lewis M. Seaver, secretary and treasurer.

Mr. Seaver was recently in this city to help select a site for the fountain.

Mr. and Mrs. Oliver McNeal of near Graham were city visitors Wednesday.

SHOW UP THE FALLS CITY BUNCH AT MEETING

Here is what the Shenandoah Sentinel-Post says about Clarinda getting back in the Mink league:

Last Saturday word was received in this city from President Carey of the Mink league that Clarinda had given up their franchise and would quit playing Saturday evening. He made arrangements for a directors' meeting at Nebraska City Sunday. Accordingly President Gauss of this club went to Nebraska City Sunday morning to be present at the meeting. Maryville had been notified and was there strong to make an effort to get back in the league. The Nebraska towns were strongly opposed to letting this city back and the motion was voted down. This is the way the great Falls City bunch showed their appreciation of the favors that Maryville has shown them in the past. They were the chief opposition to the move, and fight as hard as he could, President Gauss could not overcome their dog in the manger attitude. Then word was received from Clarinda that they had raised their money and would stay in the league. Then Falls City raised another war whoop and did not want to take them back. But they were beaten at that game and Clarinda was voted back in the league. Then Falls City demanded that all teams should drop out of the league with the exception of their most noble selves and Humboldt. They claimed that these two teams were the only ones that had a show for the pennant and that the other teams should disband. Their motive was plain. Had the other four teams quit, Humboldt and Falls City would be in the Mink league and have the right to collect the $300 franchise money from each of the teams. It would also give them a chance to freeze out all teams across the river next year and break up the league. Falls City has at last been shown in their true colors. They have covered their tracks up pretty well up to the present time, but the truth will out. They carry the highest salaried team on the circuit and they are the biggest crabbers in the league. President Gauss led the fight against them and fought them to the last ditch. He saved Clarinda from being thrown out of the league bodily and deserves much credit for the way in which he showed up the Falls City bunch to the rest of the meeting.

COMMITTEE ORGANIZED FOR STREET FAIR HERE

The committee having in charge the arfangements for a street fair to be held in Maryville either the first or second week in October met Tuesday in Friend's barber shop and perfected a permanent organization. There were present at the meeting Henry Westfall, Clyde Avitt, Jim Andy Ford, John Tilson, Berney Harris, Mark Turner, Adolph Lippman, O. K. Herndon and Mayor Robey.

The officers selected were Mayor Robey, president; M. A. Turner, secretary, and Henry Westfall, treasurer. The appointment of the different committees will be made in a day or so.

The soliciting committee will try to raise $1,500 for the street fair. They figure that this amount will be necessary to put on a fair that will come up to or be better than the former street fairs held in Maryville several years ago. Some $500 was raised Monday and Tuesday, and the balance of the amount, the committee believes, will be easy to raise.

A STONE ANIMAL DUG UP NEAR GRAHAM

Dempsey, on East Third street, and her daughter, Miss Hazel Gove, who lives with Mrs. Dempsey, went to Barnard Tuesday evening to visit her sister, Mrs. J. E. Stewart, where her little son, Paul, is also visiting.

And the reason is plain to all: Parisian Sage does just what it is advertised to do.

Ask the Koch Pharmacy about it. They will tell you that they rigidly guarantee it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women posses into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints.

OLD-TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair, and for making the hair grow.

In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The Wyeth Chemical Company of New York put up an ideal remedy of this sort, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

PLATFORM SAGS WITH REFORMS

Progressives in Mexico Take Advanced Broad Stand.

WOULD DEVELOP RESOURCES.

First National Convention of Party Pledges Its Candidates Against Re-election—Laboring Men Considered. Manual Training Schools Promised.

Mexico City, Mex., Aug. 30.—Wearied by the exercise of their constitutional but hitherto unused rights to nominate candidates for the presidency and vice presidency, delegates to the first national convention of the Progressive party adopted a platform that sags beneath its burden of reforms. Today it is expected the nominations will be made.

The first work was done in adopting the various planks of the platform. Arranging the first one was accomplished only after a noisy debate. It provided for the strict maintenance of the constitution of '57. Some delegate proposed that there be added to this "and the laws of the reform," the maesure by which Benito Juarez brought about the separation of church and state.

Delegates, jealous of the untrammeled exercise of their civil rights, gesticulated and shouted their approval of the amendment. The more conservative called attention to the fact that the principle of these laws had been embodied in an amendment to the constitution and therefore the alteration in the plank was unnecessary. In the end the plank was written and adopted.

The convention pledged its candidaets to carry out the principles of anti-re-election and to work for a revision of the election laws.

Another plank provides for a revision of the system of taxation, favors the development of public resources and promises to combat monopolis and special privileges.

The party pledges its representatives to work for a revision of the judicial and legal system. Improvement in the educational system of the country also is pledged.

If elected on this platform Francisco I. Madero, Jr., may be expected to exercise a friendly interest in Central American affairs. One provision of the party's program is for an extension of the nation's friendly relations with foreign countries, "especially those of Latin-America." The provision closes with the promise to "direct prudently the policy of the government towards bringing about a union of the Central American republics."

Special attention is paid to the interests of the laboring element in one plank, which promises "to improve the moral, intellectual and material conditions of workingmen."

Establishment of manual traing schools is promised.

TAFT IS WRITING SPEECHES

President Wants Tariff Made Main Issue of Campaign.

Beverly, Mass., Aug. 30.—So far as President Taft himself is concerned, the tariff will be the main issue of the 1912 campaign. While the president will speak on many subjects on his western trip it is certain now that tariff revision will receive most of his attention.

The president began to prepare other speeches on the tariff. He obtained copies of his veto messages on the wool, farmers' free list and cotton bills and at once set to work upon addresses that he expects to deliver later, backing up these vetoes.

Mr. Taft is said to realize that he must not merely defend himself for having rejected these bills, but that he must attack the Democrats and progressive Republicans who put them through congress.

CLARK ACCEPTS THE ISSUE

Speaker of House Replies to President's Hamilton Speech.

Quincy, Ill., Aug. 30.—Champ Clark, speaker of the national house of representatives, before leaving here, replied emphatically to President Taft's speech of defiance to insurgent Republicans and Democrats, delivered at Hamilton, Mass., last Saturday.

In a signed interview the speaker accused the president of not stating facts. He said he did not reply for the insurgent Republicans, who "never will take up the cudgels in their own behalf.

He declared, among other things, if the tariff board is to be used as a pretext for delaying tariff revision downward, the Democrats will cut off its supplies.

BOY'S TESTIMONY AIDS H. C. BEATTIE

Saw Blood Spots Along Road Where Crime Committed.

STORY COMES AS A SURPRISE

Prosecution Will Call Seven or Eight Witnesses in Refutation of Boy's Testimony and Then Rest Its Case Against Alleged Wife Murderer.

Chesterfield, Aug. 30.—A boy, talking swiftly, but clearly, revealed on the witness stand to the surprise of both defense and prosecution in the trial of Henry Clay Beattie, Jr., for wife murder, that he had observed several blood spots along Midlothian turnpike, where the crime occurred. Hitherto it had been presumed no blood spot except the one near the place where Mrs. Beattie is supposed to have been slain existed.

Alexander Robertson was the boy and what he told the jury unexpectedly in response to a question from counsel for the defense entirely upset the plan of the commonwealth to rest its case. Prosecutor Wendenberg announced that it would be necessary for him to call at least seven or eight witnesses to controvert the boy's testimony.

On direct examination by Prosecutor Wendenberg, when the latter was seeking to show where the boy found a certain yellow hairpin similar to that worn by Mrs. Beattie, Robertson referred to its distance from the "first blood spot."

"Were there two blood spots?" asked Harry M. Smith, Jr., counsel for the defense, in apparent surprise, and the boy not only told of a second blood spot, but of several smaller spots near it.

Testimony Aids Defense.

The revelation concerning the presence of more than one blood spot is in line with the contention of the defense that all blood on the road oozed from the car in which Beattie alleges his wife was shot. The prosecution's theory has been that the largest blood spot in the road at the place where Mrs. Beattie is alleged to have been killed resulted from a murder committed outside the machine and not in the seat, as Henry Beattie alleges. The prosecution has pointed out by witnesses and its statements concerning the murder that no blood was found on either running board of the car and that the dust pan underneath the car would have caught any blood that trickled through the front part of the machine from the seat and that all the blood visible had hardened on the floor of the car just beneath the steering wheel.

Robertson was summoned as a witness by the prosecution only for the purpose of testifying that he had found a hairpin, but his testimony, as a result of the questions of counsel for the defense, soon established that he would be an important witness for the defense and he subsequently will be called if necessary. In the meantime the prosecution will gather over night witnesses to show that many people looked for other blood spots and found none.

GEIDEL ENDS TESTIMONY

Prosecution Does Not Cross-Examine Alleged Murderer.

New York, Aug. 30.—Paul Geidel, the bellboy charged with the murder of William H. Jackson, will testify no further in his fight for life. Contrary to general expectations, the prosecution announced that it had no more questions to put to the defendant. Paul's counsel was surprised at the change of plan.

Counsel for Geidel announced outside the court room that he would introduce expert witnesses to prove that the broker died of hemorrhage and that his death was in no way induced by the chloroform-soaked towel stuck in his mouth by Paul.

Mrs. Anna Geidel, the prisoner's mother, who has not been in court before since the jury was chosen, took the stand.

"Paul was a good boy and quiet," she said as the tears started. The only question put to her had to do with the boy's character.

BULL GORES CINCINNATI MAN

Animal on Rampage Causes Stampede of Pedestrains in Street.

Cincinnati, Aug. 30.—A bull ran amuck and gored Mertel Silver of 923 Cutter street. Men and women on their way to work ran in all directions, taking refuge in halls and yards. The bull pinioned Silver against a wall, knocked him dow and cut a big hole in his head. A crowd of men armed with clubs ran to the rescue and the bull was driven back to the stock yards.

Yankee Gunners Lead World.

Norfolk, Va., Aug. 30.—American gunners proved their right to the title of the "best in the world," those of the dreadnought Delaware completely destroying every portion of the old battleship San Marcos, formerly the Texas, visible above the surface of Chesapeake bay at Tangiers sound, where it was sunk last spring by the guns of the battleship New Hampshire.

RAILROADS ARE RETRENCHING

More Than Thousand Men Laid Off During the Year.

SHOP TROUBLE MAY SPREAD.

Employees of Northwestern Preparing Demands for More Pay—Illinois Central Men Refer Strike Question to International Officers.

Chicago, Aug. 30.—Following a plan for retrenchment, railroads of the country in the last year have laid off 81,870 men, affecting a net annual saving in operating expenses of $94,000,000, according to a report made public.

This method of economy in operation has been adopted by 60 per cent of all the roads and is rapidly spreading to the remaining lines.

The decrease in expense and maintenance is said to be the result of the action of the interstate commerce commission, which refused to allow the roads to put into effect a general increase of freight rates. The largest reductions in the forces are found among the trackmen, shopmen and miscellaneous employees.

The report may, it is said, have an important bearing on the widespread unrest existing in the ranks of the shopmen on the Harriman lines.

Northwestern Men May Ask Increase.

That the dispute with the shopmen on the Union Pacific, Southern Pacific, Illinois Central and other lines may extend to other railway systems was indicated when shopmen employed by the Chicago and Northwestern road are reported to have given notice that with the expiration of the present wage agreement next month an increase of salary would be demanded.

Officials of the Northwestern road declined to discuss the subject.

Illinois Central Case Referred.

After a day of secret conferences the executive board of Illinois Central federated workmen representing ten trades have decided to leave the question of calling a strike to the international presidents of the different unions. This action is taken by some to mean a step in the direction of a peaceful settlement of the dispute. A letter was forwarded to Vice President W. L. Park and General Manager Foley of the Illinois Central railroad, asking that a conference be arranged and a number of meetings were held by the labor men while awaiting a reply to this communication.

It may take several days before the labor men conclude their negotiations with the railroad officials.

W. L. Park, vice president of the Illinois Central road, indicated that the officials of the road have determined not to deal with the federated shop employees, representatives of whom now are here from the south.

BOLT HITS PALLBEARERS

Rendered Unconscious by Shock and Drop Casket in Mud.

Canonsburg, Pa., Aug. 30.—As the casket containing the body of Stephen Mastiowicz, ticket seller in the moving picture show, was being borne to the grave in the Slavish Catholic cemetery here lightning struck a tree under which the procession was passing and the six pallbearers were knocked down. The little white casket dropped into the mud, where it lay until the party had recovered from the shock.

A wedding in the foreign settlement seriously interfered with some of the funerals. The graves for the victims had been started when the two grave diggers were summoned to the wedding. Dropping their work, they hastened away and when the funeral parties arrived it was necessary to secure other laborers while the people waited in the rain.

DAILY DEMOCRAT FORUM

VOLUME 2. MARYVILLE, MISSOURI, WEDNESDAY, AUG. 30, 1911 NO. 75.

FOR AN AUDITORIUM

TALK OF ONE FOR CHAUTAUQUA PURPOSES AT PARK.

TO BE $10,000 BUILDING

Money to Be Raised for That Purpose and Subscriptions Will Be Received by the Newspapers.

The committee on a permanent Chautauqua company for Maryville is taking up the matter of building a $10,000 steel auditorium for Chautauqua purposes at the Normal park, where the Chautauqua was held this year. Several letters have been written to other towns where they have Chautauqua buildings.

The plan of building an auditorium on the Chautauqua grounds should meet with the approval of the citizens, and it is thought that probably $10,000 can be raised here for that purpose. There is no doubt that if Maryville has a permanent Chautauqua that we ought to have a permanent auditorium. The building could be used for many other purposes, such as meetings or conventions, and for corn growing and domestic science contests that are given under the direction of County Superintendent Oakerson each year.

On the last night of the Chautauqua $1,250 was subscribed by five men for a permanent auditorium if $10,000 could be raised for that purpose. The committee has decided to have the newspapers here receive subscriptions, and all those who are willing to subscribe toward that purpose are requested to either send or telephone their subscription in to either newspaper office.

What Clarinda Did.

The following is from William Orr of Clarinda in regard to the auditorium built at Clarinda for Chautauqua purposes:

"We built our auditorium after carefully viewing the good ones of the country, and we are more than pleased with it. While it will not seat our large crowds, we feel that the day of great crowds are past. Our auditorium is 130 feet across, with a 5-foot projecture of roof, making it 140 feet. It has a stage and dressing rooms, 40x60. It has permanent seats, made of 2x4 and 1x12, that are strong and serviceable, but not very attractive. We contracted with Burnham & Ives of Bloomington, Ill., for the steel frame and let the contract for the wood work to a contractor here. Burnham & Ives built the structure ready for the wood work. We put single roof on all but the stage annex and it is rubberoid. We bought a little stage scenery costing us $400. Our floor is covered with tanbark.

"The steel frame is bolted to concrete piers, built in the ground. The building is raised four feet from center to rear and sloped a foot and a half from center to front of stage. It is entirely open on all sides but the stage side, where there are two wings from the front of the stage to protect the platform. It is lighted with electricity, the building being wired in conduits after the most approved style. This wiring cost us $400.

"The building completed as it is now cost us $10,000."

From Fairfield, Ia.

A letter from Charles W. Wade, a former resident of Maryville, to S. H. Kemp of this city says:

"Relative to our Chautauqua auditorium, we have a wooden structure that will seat 4,500 people comfortably. This building cost completed $2,800. It is built over a natural bowled piece of ground, so that anyone in the building can see and hear the speaker. The roof is tar paper and the sides are all doors, and so hinged that they raise and make a shade awning for the eaves. The seats are regular lawn settees, about 6 feet long. Our association went in debt about $10,000, and it is now more than three-fourths paid out. Some new stock is taken out each year, and the debt will be cancelled about three years before the final is due. I hope you can inject enough enthusiasm in Maryvillians to erect the building."

Harold and Dale Bellows left Wednesday for Ames, Ia., where they will attend the Iowa Agricultural college the coming year.

CLARK TO COME TO MARYVILLE SOON

Prof. W. M. Oakerson and W. C. Van Cleve went to Shenandoah Tuesday to interview Hon. Champ Clark with a view to securing him to deliver an address in Maryville during the corn contest in November. Mr. Clark agreed to come to Maryville at that time, provided he can arrange his speaking dates so that he can do so. The whole of October will be taken up in Chautauqua work, and in addition to that he has agreed to make a large number of political addresses.

Mr. Clark spoke Tuesday to a large crowd at Shenandoah and was received with much enthusiasm when ex-Congressman Jamison referred to him as "a politician who believes in fulfilling after election all the promises he makes before election," and declared him his choice for the presidency.

He made an able non-partisan address on the achievements of the United States, and declared himself an optimist who believes the world is continually growing better and that this country is primarily responsible for an improvement throughout the world.

ANIMAL DRINKING FOUNTAIN IS NOW READY.

SKETCH OF THE FOUNDER

Of the National Humane Alliance, Who Left His Fortune to Better Condition of Dumb Animals.

Since the water is turned on into the handsome new drinking fountain recently presented to the city by the National Humane Alliance, and which has been placed at the intersection of Market and Fourth streets, it is an opportune time to call attention to the founder of the National Humane Alliance. This man was the late Hermon Lee Ensign.

The fountain was secured for Maryville by the local humane society.

Mr. Ensign was born in Carbondale, Pa., on June 30, 1849. At any early age he moved with his parents to Sheffield, Ill. When 15 years old he acquired a knowledge of telegraphing, and soon became an expert operator. Soon after that he went to Davenport, Ia., and later to Denver.

He was reared under religious influences, was a member of the Congregational church, and when 20 years old decided to become a minister. With that object, he entered Phillips academy. His health or finances soon failed, and he left school and went to Chicago, where he began business with a bridge company.

During the great fire of 1871 he rendered important service to this company by saving from the office valuable books.

A few years later he became the manager of a brilliantly written paper called the Alliance, a weekly journal, mildly religious and widely humanitarian. His experience in journalism he turned to practical account by later engaging in the advertising business, following it with marked success, and acquired a fortune in twenty years.

Fertile in fancy and quick in experience, he devised a new form of newspaper advertising known as headline reading advertising. He also invented the stereotype plate with removable base.

In 1882 he moved to Rochester, and two years later to New York, where he lived until his death in 1899.

Without advantages of birth or fortune, living the life of a quiet American citizen and dying before he was 50, he had rounded out a notable life. To his business and general friends he was known as a genial and companionable man, successful in his affairs, light-hearted and satisfied with life. His more intimate friends know that he had other interests and feelings, which represented the deeper and more vital side of his nature. He had an eager and imaginative temperament, an instinctive love of what is good and true and a hatred of what is wrong. From childhood he was a lover of domestic animals. This love made him detest all that was cruel or unkind in the treatment of animals by their natural protector—man. It became more than a sentiment—it became a passion, growing upon him and at last dominating his life.

To him animals were not merely inferiors or slaves, they were companions and friends, devoting themselves to man and dependent upon him for their lives and happiness. The ethics of the relations with lower animals have seldom had more practical and forcible expression than from this humane man. He was an ardent disciple of Henry Bergh, and felt that if he could leave behind him such a record as did Mr. Bergh, he would regard it as the best monument that he could desire.

He accordingly founded the National Humane Alliance to carry out his ideas for the welfare of animals. He intended to give his time and fortune to the work. But just as it was started he died. He left his fortune for this work, and the society is administering the trust of Mr. Ensign on the lines of his ideas, for humane work, educating children in kindness to animals and other similar work.

The Humane Alliance has offices at No. 520 United Charities building, New York City. The officers are: Harrison Grey Fiske, president; Frederick B. Tilghman, vice president; Lewis M. Seaver, secretary and treasurer.

Mr. Seaver was recently in this city to help select a site for the fountain.

Mr. and Mrs. Oliver McNeal of near Graham were city visitors Wednesday.

SHOW UP THE FALLS CITY BUNCH AT MEETING

Here is what the Shenandoah Sentinel-Post says about Clarinda getting back in the Mink league:

Last Saturday word was received in this city from President Carey of the Mink league that Clarinda had given up their franchise and would quit playing Saturday evening. He made arrangements for a directors' meeting at Nebraska City Sunday. Accordingly President Gauss of this club went to Nebraska City Sunday morning to be present at the meeting. Maryville had been notified and was there strong to make an effort to get back in the league. The Nebraska towns were strongly opposed to letting this city back and the motion was voted down. This is the way the great Falls City bunch showed their appreciation of the favors that Maryville has shown them in the past. They were the chief opposition to the move, and fight as hard as he could, President Gauss could not overcome their dog in the manger attitude. Then word was received from Clarinda that they had raised their money and would stay in the league. Then Falls City raised another war whoop and did not want to take them back. But they were beaten at that game and Clarinda was voted back in the league. Then Falls City demanded that all teams should drop out of the league with the exception of their most noble selves and Humboldt. They claimed that these two teams were the only ones that had a show for the pennant and that the other teams should disband. Their motive was plain. Had the other four teams quit, Humboldt and Falls City would be in the Mink league and have the right to collect the $300 franchise money from each of the teams. It would also give them a chance to freeze out all teams across the river next year and break up the league. Falls City has at last been shown in their true colors. They have covered their tracks up pretty well up to the present time, but the truth will out. They carry the highest salaried team on the circuit and they are the biggest crabbers in the league. President Gauss led the fight against them and fought them to the last ditch. He saved Clarinda from being thrown out of the league bodily and deserves much credit for the way in which he showed up the Falls City bunch to the rest of the meeting.

COMMITTEE ORGANIZED FOR STREET FAIR HERE

The committee having in charge the arfangements for a street fair to be held in Maryville either the first or second week in October met Tuesday in Friend's barber shop and perfected a permanent organization. There were present at the meeting Henry Westfall, Clyde Avitt, Jim Andy Ford, John Tilson, Berney Harris, Mark Turner, Adolph Lippman, O. K. Herndon and Mayor Robey.

The officers selected were Mayor Robey, president; M. A. Turner, secretary, and Henry Westfall, treasurer. The appointment of the different committees will be made in a day or so.

The soliciting committee will try to raise $1,500 for the street fair. They figure that this amount will be necessary to put on a fair that will come up to or be better than the former street fairs held in Maryville several years ago. Some $500 was raised Monday and Tuesday, and the balance of the amount, the committee believes, will be easy to raise.

A STONE ANIMAL DUG UP NEAR GRAHAM

A petrified alligator, six feet in length and weighing about three hundred pounds, has been unearthed by A. H. Smith, a farmer near Graham, in the southwest part of this county. The fossil is almost perfect in form and detail.

Smith found the stone saurian in a small quarry on his farm, under about fifteen feet of sandy rock. The quarry is now on high ground, at a distance from any present day creek or stream. The fossil is at Smith's home.

Mrs. G. A. McAdams of Los Angeles, Cal., who has been visiting her mother, Mrs. W. M. Dempsey, on East Third street, and her daughter, Miss Hazel Gove, who lives with Mrs. Dempsey, went to Barnard Tuesday evening to visit her sister, Mrs. J. E. Stewart, where her little son, Paul, is also visiting.

Saturday evening at 8 o'clock and on Sunday at the hours of 11 a. m. and 2 and 8 p. m. the following brethren preached respectively: E. S. Fannon, A. C. Silvers, T. A. Ivie and W. H. Kelley. CHARMING HAIR.

Every Woman Can Have It By Using Parisian Sage—Guaranteed by the Koch Pharmacy.

There is a reason for the phenomenal sale of Parisian Sage in the United States since it was first introduced into America, and the sales this year are breaking all records.

And the reason is plain to all: Parisian Sage does just what it is advertised to do.

Ask the Koch Pharmacy about it. They will tell you that they rigidly guarantee it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women posses into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints.

Sold by leading druggists everywhere and in Maryville by the Koch Pharmacy for 50 cents a large bottle. The girl with Auburn hair is on every package; mail orders filled, charges prepaid, by the American makers, Giroux Mfg. Co., Buffalo, N. Y.

WHY SO WEAK?

Kidney Troubles May Be Sapping Your Life Away—Maryville People Have Learned This Fact.

Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Can Maryville readers demand further proof than the following statement:

Mrs. W. M. Newman, Chestnut street, Savannah, Mo., says: "Doan's Kidney Pills have been of more benefit to me than any other kidney remedy I have ever used, and in view of this fact, I willingly recommend them. I was caused much suffering by pains in my shoulders, and mornings on arising I felt tired and languid. I was also bothered by the kidney secretions. Hearing Doan's Kidney Pills highly spoken of, I procured a box, and soon after beginning their use I was relieved. Another member of my family has also taken this remedy with satisfactory results."

OLD-TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair, and for making the hair grow.

In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The Wyeth Chemical Company of New York put up an ideal remedy of this sort, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

PLATFORM SAGS WITH REFORMS

Progressives in Mexico Take Advanced Broad Stand.

WOULD DEVELOP RESOURCES.

First National Convention of Party Pledges Its Candidates Against Re-election—Laboring Men Considered. Manual Training Schools Promised.

Mexico City, Mex., Aug. 30.—Wearied by the exercise of their constitutional but hitherto unused rights to nominate candidates for the presidency and vice presidency, delegates to the first national convention of the Progressive party adopted a platform that sags beneath its burden of reforms. Today it is expected the nominations will be made.

The first work was done in adopting the various planks of the platform. Arranging the first one was accomplished only after a noisy debate. It provided for the strict maintenance of the constitution of '57. Some delegate proposed that there be added to this "and the laws of the reform," the measure by which Benito Juarez brought about the separation of church and state.

Delegates, jealous of the untrammeled exercise of their civil rights, gesticulated and shouted their approval of the amendment. The more conservative called attention to the fact that the principle of these laws had been embodied in an amendment to the constitution and therefore the alteration in the plank was unnecessary. In the end the plank was written and adopted.

The convention pledged its candidaets to carry out the principles of anti-re-election and to work for a revision of the election laws.

Another plank provides for a revision of the system of taxation, favors the development of public resources and promises to combat monopolis and special privileges.

The party pledges its representatives to work for a revision of the judicial and legal system. Improvement in the educational system of the country also is pledged.

If elected on this platform Francisco I. Madero, Jr., may be expected to exercise a friendly interest in Central American affairs. One provision of the party's program is for an extension of the nation's friendly relations with foreign countries, "especially those of Latin-America." The provision closes with the promise to "direct prudently the policy of the government towards bringing about a union of the Central American republics."

Special attention is paid to the interests of the laboring element in one plank, which promises "to improve the moral, intellectual and material conditions of workingmen."

Establishment of manual traing schools is promised.

TAFT IS WRITING SPEECHES

President Wants Tariff Made Main Issue of Campaign.

Beverly, Mass., Aug. 30.—So far as President Taft himself is concerned, the tariff will be the main issue of the 1912 campaign. While the president will speak on many subjects on his western trip it is certain now that tariff revision will receive most of his attention.

The president began to prepare other speeches on the tariff. He obtained copies of his veto messages on the wool, farmers' free list and cotton bills and at once set to work upon addresses that he expects to deliver later, backing up these vetoes.

Mr. Taft is said to realize that he must not merely defend himself for having rejected these bills, but that he must attack the Democrats and progressive Republicans who put them through congress.

CLARK ACCEPTS THE ISSUE

Speaker of House Replies to President's Hamilton Speech.

Quincy, Ill., Aug. 30.—Champ Clark, speaker of the national house of representatives, before leaving here, replied emphatically to President Taft's speech of defiance to insurgent Republicans and Democrats, delivered at Hamilton, Mass., last Saturday.

In a signed interview the speaker accused the president of not stating facts. He said he did not reply for the insurgent Republicans, who "never will take up the cudgels in their own behalf.

He declared, among other things, if the tariff board is to be used as a pretext for delaying tariff revision downward, the Democrats will cut off its supplies.

An inmate of the bawdy house, Pearl Snips, was also fined $100 and was told to leave the city. Harry Johnson, who attempted to take his life in the Slater house Monday evening by taking carbolic acid, was fined $20 and costs by Judge Johnson Tuesday afternoon for being a frequenter of the house.

BOY'S TESTIMONY AIDS H. C. BEATTIE

Saw Blood Spots Along Road Where Crime Committed.

STORY COMES AS A SURPRISE

Prosecution Will Call Seven or Eight Witnesses in Refutation of Boy's Testimony and Then Rest Its Case Against Alleged Wife Murderer.

Chesterfield, Aug. 30.—A boy, talking swiftly, but clearly, revealed on the witness stand to the surprise of both defense and prosecution in the trial of Henry Clay Beattie, Jr., for wife murder, that he had observed several blood spots along Midlothian turnpike, where the crime occurred. Hitherto it had been presumed no blood spot except the one near the place where Mrs. Beattie is supposed to have been slain existed.

Alexander Robertson was the boy and what he told the jury unexpectedly in response to a question from counsel for the defense entirely upset the plan of the commonwealth to rest its case. Prosecutor Wendenberg announced that it would be necessary for him to call at least seven or eight witnesses to controvert the boy's testimony.

On direct examination by Prosecutor Wendenberg, when the latter was seeking to show where the boy found a certain yellow hairpin similar to that worn by Mrs. Beattie, Robertson referred to its distance from the "first blood spot."

"Were there two blood spots?" asked Harry M. Smith, Jr., counsel for the defense, in apparent surprise, and the boy not only told of a second blood spot, but of several smaller spots near it.

Testimony Aids Defense.

The revelation concerning the presence of more than one blood spot is in line with the contention of the defense that all blood on the road oozed from the car in which Beattie alleges his wife was shot. The prosecution's theory has been that the largest blood spot in the road at the place where Mrs. Beattie is alleged to have been killed resulted from a murder committed outside the machine and not in the seat, as Henry Beattie alleges. The prosecution has pointed out by witnesses and its statements concerning the murder that no blood was found on either running board of the car and that the dust pan underneath the car would have caught any blood that trickled through the front part of the machine from the seat and that all the blood visible had hardened on the floor of the car just beneath the steering wheel.

Robertson was summoned as a witness by the prosecution only for the purpose of testifying that he had found a hairpin, but his testimony, as a result of the questions of counsel for the defense, soon established that he would be an important witness for the defense and he subsequently will be called if necessary. In the meantime the prosecution will gather over night witnesses to show that many people looked for other blood spots and found none.

GEIDEL ENDS TESTIMONY

Prosecution Does Not Cross-Examine Alleged Murderer.

New York, Aug. 30.—Paul Geidel, the bellboy charged with the murder of William H. Jackson, will testify no further in his fight for life. Contrary to general expectations, the prosecution announced that it had no more questions to put to the defendant. Paul's counsel was surprised at the change of plan.

Counsel for Geidel announced outside the court room that he would introduce expert witnesses to prove that the broker died of hemorrhage and that his death was in no way induced by the chloroform-soaked towel stuck in his mouth by Paul.

Mrs. Anna Geidel, the prisoner's mother, who has not been in court before since the jury was chosen, took the stand.

"Paul was a good boy and quiet," she said as the tears started. The only question put to her had to do with the boy's character.

BULL GORES CINCINNATI MAN

Animal on Rampage Causes Stampede of Pedestrains in Street.

Cincinnati, Aug. 30.—A bull ran amuck and gored Mertel Silver of 923 Cutter street. Men and women on their way to work ran in all directions, taking refuge in halls and yards. The bull pinioned Silver against a wall, knocked him dow and cut a big hole in his head. A crowd of men armed with clubs ran to the rescue and the bull was driven back to the stock yards.

Yankee Gunners Lead World.

Norfolk, Va., Aug. 30.—American gunners proved their right to the title of the "best in the world," those of the dreadnought Delaware completely destroying every portion of the old battleship San Marcos, formerly the Texas, visible above the surface of Chesapeake bay at Tangiers sound, where it was sunk last spring by the guns of the battleship New Hampshire.

RAILROADS ARE RETRENCHING

More Than Thousand Men Laid Off During the Year.

SHOP TROUBLE MAY SPREAD.

Employees of Northwestern Preparing Demands for More Pay—Illinois Central Men Refer Strike Question to International Officers.

Chicago, Aug. 30.—Following a plan for retrenchment, railroads of the country in the last year have laid off 81,870 men, affecting a net annual saving in operating expenses of $94,000,000, according to a report made public.

This method of economy in operation has been adopted by 60 per cent of all the roads and is rapidly spreading to the remaining lines.

The decrease in expense and maintenance is said to be the result of the action of the interstate commerce commission, which refused to allow the roads to put into effect a general increase of freight rates. The largest reductions in the forces are found among the trackmen, shopmen and miscellaneous employees.

The report may, it is said, have an important bearing on the widespread unrest existing in the ranks of the shopmen on the Harriman lines.

Northwestern Men May Ask Increase.

That the dispute with the shopmen on the Union Pacific, Southern Pacific, Illinois Central and other lines may extend to other railway systems was indicated when shopmen employed by the Chicago and Northwestern road are reported to have given notice that with the expiration of the present wage agreement next month an increase of salary would be demanded.

Officials of the Northwestern road declined to discuss the subject.

Illinois Central Case Referred.

After a day of secret conferences the executive board of Illinois Central federated workmen representing ten trades have decided to leave the question of calling a strike to the international presidents of the different unions. This action is taken by some to mean a step in the direction of a peaceful settlement of the dispute. A letter was forwarded to Vice President W. L. Park and General Manager Foley of the Illinois Central railroad, asking that a conference be arranged by the labor men while awaiting a reply to this communication.

It may take several days before the labor men conclude their negotiations with the railroad officials.

W. L. Park, vice president of the Illinois Central road, indicated that the officials of the road have determined not to deal with the federated shop employees, representatives of whom now are here from the south.

BOLT HITS PALLBEARERS

Rendered Unconscious by Shock and Drop Casket in Mud.

Canonsburg, Pa., Aug. 30.—As the casket containing the body of Stephen Mastiowicz, ticket seller in the moving picture show, was being borne to the grave in the Slavish Catholic cemetery here lightning struck a tree under which the procession was passing and the six pallbearers were knocked down. The little white casket dropped into the mud, where it lay until the party had recovered from the shock.

A wedding in the foreign settlement seriously interfered with some of the funerals. The graves for the victims had been started when the two grave diggers were summoned to the wedding. Dropping their work, they hastened away and when the funeral parties arrived it was necessary to secure other laborers while the people waited in the rain.
